# Rating vs Ranking

What is the difference between **Ratings** and **Rankings**?

**RATINGS** define your technical skills in a NON-COMPETITIVE SITUATION

**RANKINGS** reflects ALL your skills during the COMPETITION

To succeed in the competition, a player needs:

- Technical skills
- Tactical skills
- Observation skills (reading the opponent and finding his/her weakness)
- Physical ability
- Mental toughness

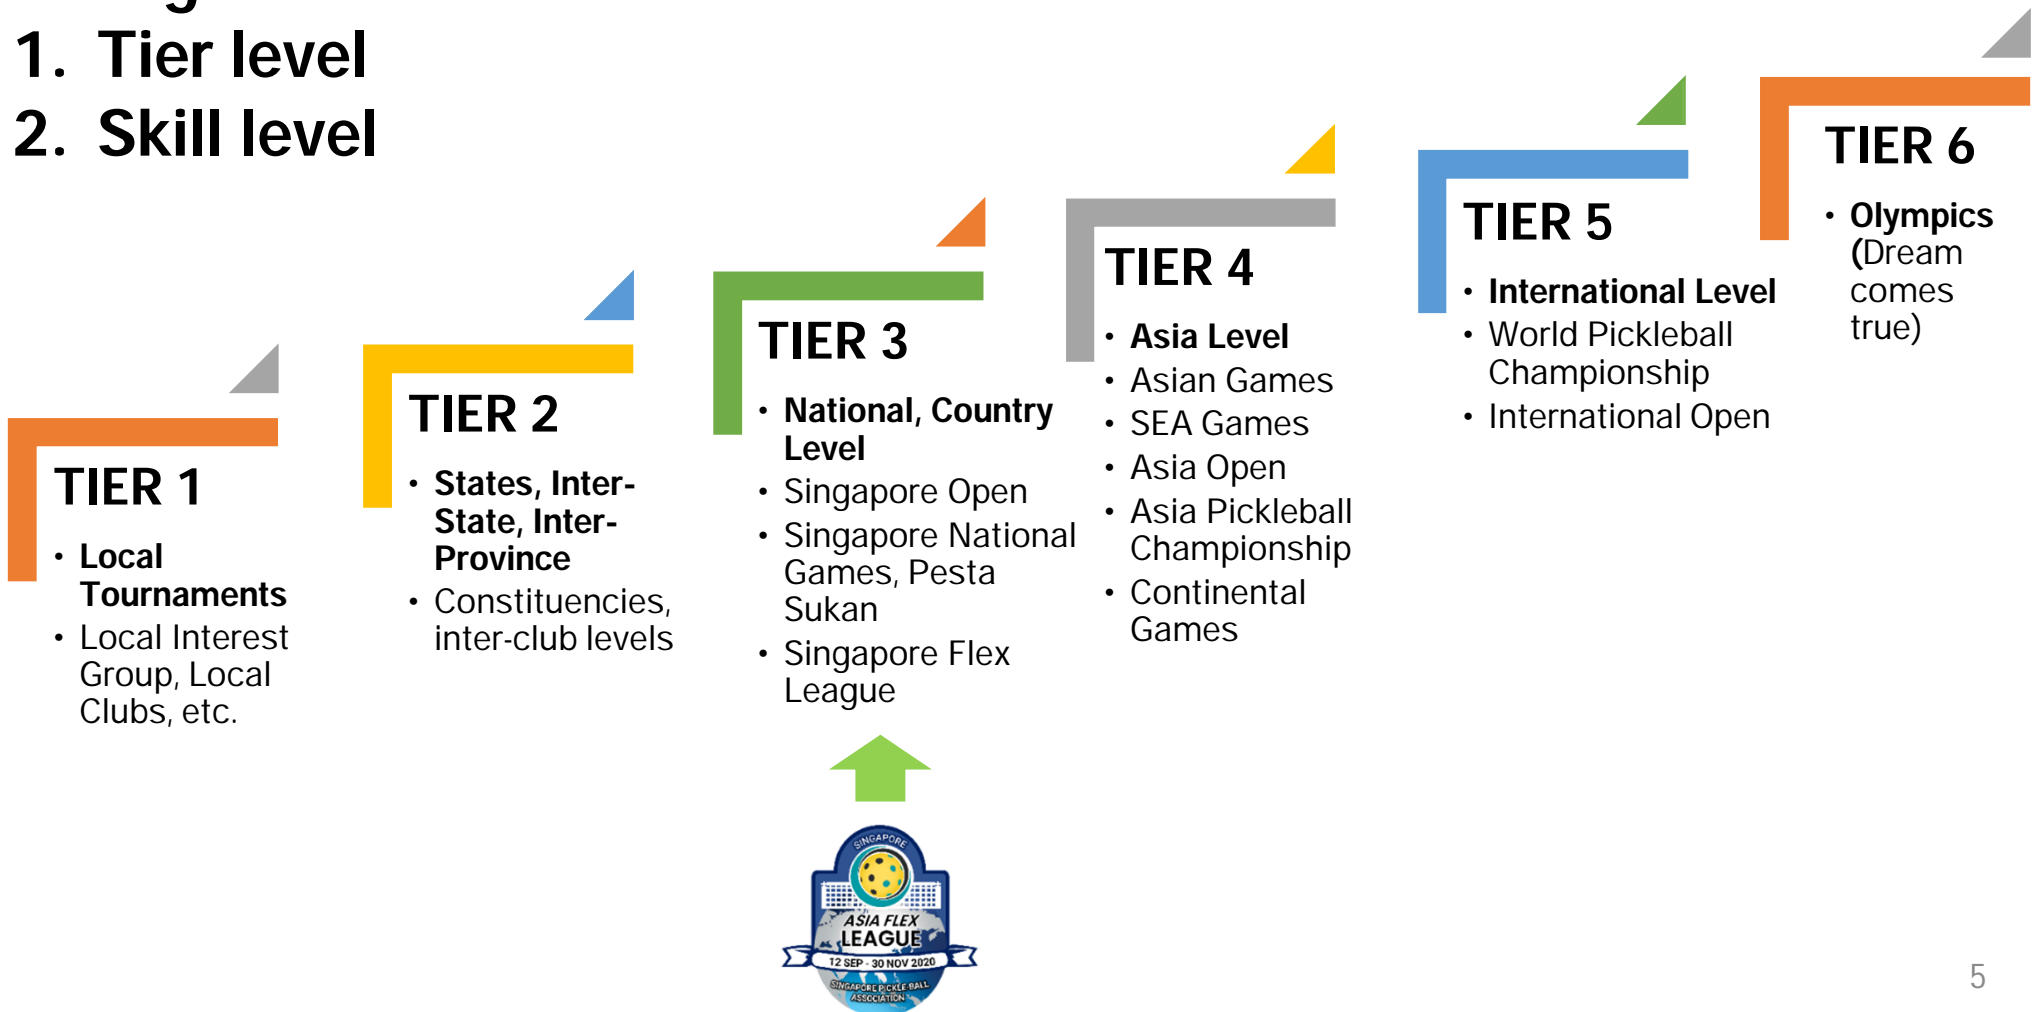

***“Rating shows your technical skills but Ranking shows your COMPLETE package”***
